

June 2, 1901
Dear Vickie and Jimmy,

I know you are having a busy time with your company and the time is very close now before you leave for Italy.

Mary has been studying hard so she will have her final next Thursday. She and Irene will soon be out of school for the summer. This Friday, Irene will start painting in oils. Dad just bought all the paints, brushes and other materials she will need and it came to forty dollars, but the cabin is paying for it. I invested some of my money and the interest rate changes every week but it so far is staying around 15%.

Libbey and Tony Forrest were over for dinner and bridge last Saturday night and we had a good time altho they stayed until almost 3 A.M. and then I cleaned up after they left so was really tired Sunday.

I hope you are getting along fine.

Love, Mom.
